The costs for participation will be about \$ 120.- per person, including \$ 40 per person for the main conference and \$ 80 per person for the main organizer in Cologne.

Meeting place : Gesellschaft fur Anlagen- und Reaktorsicherheit (GRS)  
Schwertnergasse 1  
D/50667 Köln

*Main topic for the seminar is a Code workshop :*

Participants will be invited to show their codes within the workshop for particular applications. The workshop will be held mainly for participants who are familiar with the practical use of fire code.

The codes and the applicability should be discussed under the following views :

**Topic :**

1. Availability and applicability of fire code for fire safety design in NPP.
2. Code validation and verification.
3. Examples for authorized applications of fire codes in NPP.
4. Physical basis of excepted fire code in use.
5. Recent development of fire codes.
6. Scientific research on fire codes for use in NPP Design

The invitation letters to the potential participants will be distributed by Dr. Rowekamp and she will also invite selected speaker for different topics especially the presentation of their fire codes and the use of computer simulations in NPP.
